WHAT IS ANA HUNNA?

ANA HUNNA is a film-based initiative aiming to motivate men and women in Egypt, Jordan, Morocco and Tunisia to challenge inequalities in the economy. Through film screenings at public events, workshops, round tables and seminars, ANA HUNNA triggers public discussion on the challenges, achievements and immense value of working women. These events open a platform for the public, activists, experts, filmmakers and actors to examine the films and express their own experiences and opinions on the topic. The films' heroines realise their personal goals in life. Through their personalities and leading roles in their communities, they become remarkable positive role models.
